automobilista formula truck

ok i dont understand how this game has such a small fan base. if you like\love driving simulation than this game is for you... there are so many diffrent cars ,go carts ,f1,indy,v8 supercar ,toca,trophy trucks ,trucks ,rally cars each car feels so realistic to drive lets get behind this game so they put more high end tracks in one of the best sims iv played and iv got pretty much all of them!!! 11\10 for fun and realistic handling!!! trophy trucks are so fun enter the corner doing the right speed turn in and give it a stab on the gas and watch the front wheel lift be gentle or roll roll roll hahaha!!! keep up the good work devs love your work. After some issues it works!

Love it and sure to be played most by me :). This is a very fun Formula Truck, with lots to do. And players will truly enjoy the ability to define their game based on their personal driving style.
